### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mrs. Meredith Palmer on August 9, 2005.

The application has been amended as follows:

Page 5, lines 4 and 5 replace the paragraph with updated priority information as follows:

This application is a continuation-in-part of United States Application Serial Number 09/384,351 filed August 27, 1999, now abandoned.

Claim 16. Cancel

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Pending claims of present invention call for a tire article, having bead rubber composition comprising two different carbon black reinforcing agents. First carbon black has DBP of less than 45 and second carbon black has DBP in a range of from about 70 to about 140.

The prior art of LAUBE discloses rubber composition for tire which comprises large carbon black having DBP lower than 45. The prior art of LAUBE does not teach carbon black having DBP 70-140.

During updated search, the prior art of CARLSON was found, however it is not applicable against present claims. The prior art of CARLSON (US 5,430,087) although teaches use of two carbon blacks for tire, the tire component is not bead and use of large carbon blacks is excluded from the scope of the disclosure.

PG Publication US 2005/0159535 to Spadone is also applicable against present claims, however it does not qualify as a prior art for date purposes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
